This summer SuperHouse folks are in the midst of shooting several short films. Some of them are wrapping up and others are just getting kicked off... and before you know it the 2010 NFC will be here...

iTeen, wraps...

Jeremy Salo and CLV Productions have wrapped on the principle photography shoots for the iTeen projects. There are just a few pickups remaining and then it is into post production. This film was shot entirely in HD and there are a lot of special effects to work through, but Jeremy is not satisfied there... he is adding a 5.1 audio mix to the post production efforts... a first for a SuperHouse production.

Mosaic, in pre-production

Generation Courage, owners Dan Fisher and Melissa Kerley, are in pre-production on Mosaic, a new short film. We are scheduled to start shooting the weekends of July 30- Aug. 2. We are still looking for a small house or apartment to shoot at on Aug 1 if possible. Mosaic is a screenplay written from Project lightstand - a mysterious color coded book leads people to a place that seems like paradise...

48HFP Detroit

Melissa is also working with the Nevaeh's Message crew in the 48 Hour Film Project of Detroit we are called Rocket popsicle the team is headed by Ryan Betzler, and Scott Doroco, and Melisa is coming on as producer, assistant director, and writer. This upcoming weekend July 23-25

Happy film weekend insanity... may you bring back many awards, prizes, and stories!
